DOSES OF
FOAM**

SPORICIDAL FOAM

JET is a powerful sporicidal disinfectant that can be used on medical device surfaces located near to the patient.

JET is also a powerful cleaner destroying RNA and DNA in seconds*. Its cleaning efficacy meets the requirements of a medical instrument cleaner, effectively reducing levels of protein and carbohydrate.

JET is the best safeguard for patients and staff wherever the risks of infection are highest. For use in areas such as patient wards, isolation wards, operating theatres, intensive care units, oncology wards and neonatal wards.

Effective against microorganisms of concern such as:

- *Clostridium difficile*
- Tuberculocidal mycobacteria
- Norovirus
- Coronaviruses**
- Influenza A virus (H1N1)
- Hepatitis B virus (HBV)
- Human immunodeficiency virus (HIV)
- Carbapenem-resistant Enterobacteriaceae (CRE)
- *Klebsiella pneumoniae*
- Methicillin-resistant *Staphylococcus aureus* (MRSA)
- Vancomycin-resistant Enterococci (VRE) *Enterococcus faecium*
- *Candida auris*
- *Escherichia coli*

Complete compliance with EN 14885:2018 and the latest published regulatory standards for disinfectants used in the medical area.

POWERED BY CHLORINE DIOXIDE FOAM

JET is built upon the same core chlorine dioxide technology as the Tristel medical device disinfectant products, but specially adapted for surface disinfection where cleaning and biofilm destruction are so important.

Chlorine dioxide is widely regarded as one of the most effective disinfectants for biofilm removal and prevention.

JET delivers chlorine dioxide as a foam. It creates no aerosols when used.

SAVING SPACE, REDUCING WASTE

3.5 Kilos

0.8 Kilos

Efficacy with the standard wipe in EN 16615 means JET can be used with any sustainably sourced wipe, avoiding the use and waste of plastic wipes.

NEAR THE PATIENT WHERE JET WILL PROVIDE ITS GREATEST PROTECTION:

**AVAILABLE TO
ORDER NOW!**

2 x 800ml JET per box

Quote: CCH010101

JET is CE marked as a Class IIa Medical Device in accordance with the European Medical Devices Directive 93/42/EEC and the 2007/47/EC amendments thereto.
